11:30AM, 1:00PM, 2:30PM

Room M-141

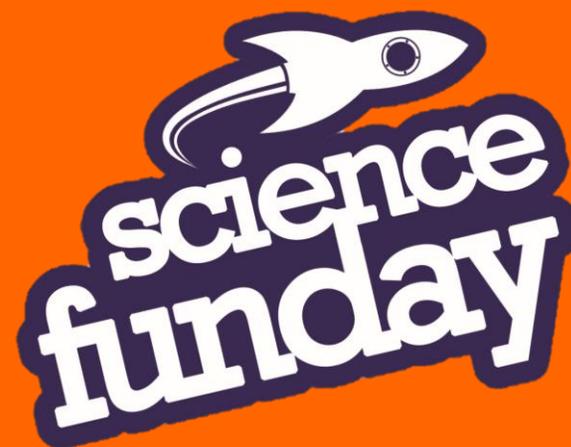

Ecocar
12:20PM, 1:30PM

SCIENCE FUNDAMENTALS

Science FUNdamentals is a charity organization and student group at the University of Alberta which is dedicated to enhancing elementary education by sparking interest and curiosity about science in the young minds of our community. Our group was founded in 2003 and we currently have over 140 volunteers that regularly visit elementary classrooms across Edmonton to present interactive science demonstrations. Science FUNday is our free annual science exhibition.

THANK YOU for attending our event.
We look forward to seeing you next year!

FUN-filled day of science exploration!

Saturday, March 12th 2016

10AM to 4PM

Centennial Centre for
Interdisciplinary Science
